EMPLOYMENT

Senior Software Engineer   **Gilbarco Veeder Root**   **April 2014-July 2017**
- Designed and Developed Mobile Payment Application to make payments at the fueling stations.
- Developed Scalable Cloud Infrastructure using Amazon Web Services.
- Implemented Security SSL/TLS for Mutual Authentication and Virtual Private Cloud(VPC) for Cloud Infrastructure.
- Implemented RESTful Web Services.
- Followed Agile Development methodology for software development and deployment.

EDUCATION

Dominguez Hills, CA   **California State University**   **Aug 2017-May 2019**
- Master of Science in Computer Science.
- Graduate Coursework: Analysis of Algorithms, Advance Software Engineering, Advance Artificial Intelligence.

Pune, India   **Pune University**   **Jun 2009-May 2013**
- Bachelor of Engineering in Computer Science. GPA: 3.0
- Undergraduate Coursework: Programming Languages, Data structures, Calculus, Computer Architecture, Object Oriented Modeling and Design, Computer Networks.

TECHNICAL EXPERIENCE

Academic Projects

- **SMS Based Web Search:** use simple message service (SMS) to search some content on the
- internet, Java, GSM service.
- **Real Estate Management System:** Visual Basic portal to view and manage real estate projects at one place. Visual Basic, SQL.

Employment Projects:

- **Mobile Payment Project:** Mobile Payment was developed as an application to make payments at the fueling stations. Using Cloud Infrastructure of Amazon Web Services.
- **Remote Management Project:** In Remote Management project fuel dispensers are connected to the internet to remotely manage them to reboot, give commands and listen to the events without human intervention. Making dispensers smart.
- **Device Farm:** A Node.js application to launch user defined device simulators in the cloud for testing the infrastructure and web services.

ADDITIONAL EXPERIENCE AND AWARDS

- Starz Award (2015): Awarded for outstanding performance and lasting contribution to Automating Cloud Testing Scenarios in Gilbarco Veeder Root.
- Starz Award (2017): Awarded for outstanding performance and lasting contribution for the value added to remote management with Automated scripts and utilities in Gilbarco Veeder Root.
-

TECHNICAL SKILLS

Java, ruby, node.js, MySQL, UNIX, Aamzon Web Services, ElasticSearch, Agile Software Development, Github, Eclipse, Atom Editor.
